

A Resolution Concerning Iran's Aspirations Towards Nuclear Capabilities

Respectfully Submitted by Sylvania Southview High School

1 Whereas, Iran has aspired aggressively for years to obtain nuclear capabilities, often
2 contravening the United Nations and other world powers, and
3 Whereas, Iran displays that it has something to hide through the limitations of United Nations
4 weapons inspectors within its borders, and
5 Whereas, Iran displays that it has intentions other than civilian power by the usage of
6 underground research facilities, and
7 Whereas, Iran has one the largest oil wells on the planet, capable of meeting its peoples
8 energy needs, and
9 Whereas, Iran has shown that it has no intention of using nuclear capabilities safely, shown
10 through blatant violations of IAEA safeguards, and
11 Whereas, Iran would be a threat to itself and surrounding nations if it fails to follow
12 international safeguards for the safe usage of nuclear capabilities, and
13 Whereas, Iran is a threat to the entire region, shown through dealings of aggression towards
14 other nations in terms of actions of war and affiliations with terrorist groups, and
15 Whereas, Iran would pose a threat to the entire world with the capabilities of nuclear
16 weapons; therefore
17 BE IT RESOLVED by the Student Congress here assembled that:
18 The United States, being committed to maintaining global stability, pledge to take actions to
19 deter and prevent Iran from reaching nuclear capabilities if negotiations and other
20 international bodies fail to do so
